

Factory Automation Application Sample

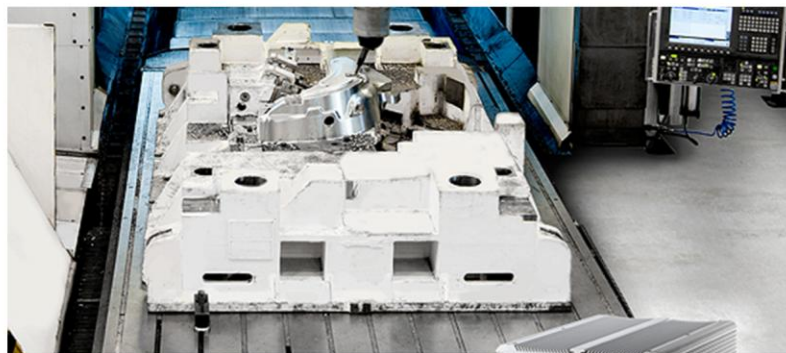

ADVANTECH

FEBRUARY 17, 2016

Advantech Unveils New Intel Celeron/Pentium Embedded Platforms with IoT Remote Management Built-in.

Based on Intel's 14nm manufacturing process, the latest Intel® Celeron® and Pentium® processor SoCs bring Intel's latest innovations and processor efficiencies to embedded computing systems. Enhancements include up to twice the graphics performance, and up to 9% longer battery life.

NControl30/30D

The Comprehensive CNC Solution for 2D/3D Special Machining

ECROSSER
Acrosser Technology Co.,Ltd

FEBRUARY 26, 2016

**The First Step to Industry 4.0 is Networking!
Acrosser Mini-ITX series to realize Factory Automation and Industry 4.0 application.**

ACROSSER Technology, a world-leading networking appliance supplier, has comprehensive networking appliances series to help Factory Automation and Industry 4.0 come true. From automation application to intelligent industry, Networking is definitely the first step.

NEXCOM

FEBRUARY 17, 2016

MECHATROLINK-III Certified NControl 30 Ensures Precise Control of Machine Automation.

NEXCOM MECHATROLINK-III-certified NControl 30 holds machine automation to a high standard, yielding superior quality output of CNC machining. The PC-based CNC controller NControl 30 brings machine builders the openness of PC architecture, high-speed highly-reliable control of MECHATROLINK-III, and flexibility in machine development.

Meticulous to details and precise in execution, the NControl 30 manages with ease the complexity and sophistication of 5-axis CNC machining, reinvigorating machine automation at full throttle.

Portwell

FEBRUARY 17, 2016

Portwell Releases Rugged Fan-less Intelligent Embedded System Powered by Intel® Pentium®/ Celeron® Quad/Dual-core Processor N3000 Series.

EBS-21B0, a fan-less intelligent embedded system featuring the Intel® Pentium® and Celeron® Processor N3000 product family in quad and dual-core configurations. A rugged, compact design and low power consumption make the WEBS-21B0 the perfect solution for applications in kiosk, digital signage, in-vehicle mobile video surveillance, medical, and the harsh environments of factory automation.
