MPT-7000R

EN50155 Certified Multi-Purpose Rolling Stock System

Powered by 6th Gen Intel Core I7-6600U Processor

iBASE

JAN 26, 2017

IBASE Introduces EN50155 Certified Multi-Purpose Rolling Stock System

Purposely built for various rolling stock applications such as train control and management, passenger information, entertainment and communications, and surveillance, the rugged MPT-7000R computing solution provides an optimal combination of high performance with low power consumption. -read more-

NEXCOM

NANO 1190

FEB 09, 2017

Mobile NVR with 4 PoE ports for Vehicle and Railways

Mobile NVR NANO 1190 Constitutes a Ready-to-Use Monitoring Solution for Vehicles and Railways

The NANO 1190 enables direct installation and scalability. It's a turnkey solution ready to power on and start using immediately. The built-in VMS allows the mobile NVR to provide pre-validated camera compatibilities to support ONVIF cameras, prioritizing content recording and storage management. -read more-

KINO-DCM236

Mini ITX SBC with 6th Intel® Xeon® Processor E3 v5 series, Core™ i3, Celeron® support DDR4-2133 memory with ECC support

iEi

JAN 26, 2017

IEI Launches the New KINO-DCM236 Mini ITX Skylake Motherboard

Mini ITX form factor with 6th Intel® Xeon® Processor E3 v5 series, Core™ i3, Celeron® support DDR4 2133 memory with ECC support, Triple display with independent audio, Rich High speed I/O interface for USB 3.0 and SATA 6Gb/s. -read more-

AXIOMTEK

FEB 08, 2017

Axiomtek 21.5-inch GOT3217W-845-PCT Bringing Highly Efficient and Friendly Operation with 10-point Multi-touch Technology

1. Terminal block for DC power input or 2. Screw conn. w/AC power adapter
3. USB 2.0 x 2
4. Audio (Line-out)
5. COM1 (RS-232/422/485)
6. COM2 (RS-232)
7. HDMI x 1
8. USB 3.0 x 2
9. Ethernet x 2
10. AT/ATX selectable switch
11. Power switch (ATX)
12. Speaker
13. Backlight switch
14. Brightness adjust +/-

The widescreen GOT3217W-845-PCT features an IP65-rated water/dust-proof front bezel and is able to withstand temperature range from 0°C to 45°C. Operational vibration resistance is up to 1G. Designed to offer a better viewing and operating experience, the power-efficient 21.5" touch panel PC supports Full HD resolution and 10-point multi-touch screen. -read more-

APLEX Technology

FEB 06, 2017
