IPCIE-4POE

PCI Express Power over ethernet frame grabber card,
4-port 1000 Base(T), 802.3af compliant

iEi

FEB 15, 2017

IEI Launches the New IPCIE-4POE PCI Express card

PCI Express® x4 compliant, Support for IEEE 802.3af for PoE (Power oveer Ethernet) with 15.4 watts per port, Support link aggregation/jmbo frames (9 Kbyte), Supports 12~24 AT/ATX DC input power. -read more-

MOXA®

FEB 21, 201:

Ramp Up the Security and Efficiency of Industrial Networks with the OnCell G3150A-LTE

Moxa's new LTE cellular gateway, the OnCell G3150A-LTE, enables high-speed data transmission without compromising network security. The OnCell Central Manager tool extends the capabilities of the cellular gateway to provide fast deployment as well as powerful monitoring and security functions. -read more-

Portwell

FEB 16, 2017

Portwell Announces Its First SMARC Module with Low Power x86 Processor New PSMC-M101 Model Series Embedded with Infineon's OPTIGA™ Trust IC to Protect Connected Systems Against Unauthorized Devices

Portwell today announced PSMC-M101, its first SMARC module with x86 based processor. The PSMC-M101 model series (82x50mm), is based on Intel® latest 14nm Atom™, Celeron® and Pentium® processors (codenamed Apollo Lake). The new Intel® Atom™ processor E3900 product family integrates the Intel® Gen 9 3D graphics engine with up to 18 EUs (Execution Units) that improves the performance and supports 4K Codec Decode & Encode. -read more-
