Slim and Powerful DS-082 4K Digital Signage Player

Advantech announced the launch of DS-082, the powerful yet slim 4K digital signage solution for four displays. This powerful 4K signage system delivers a high-impact visual experience across multiple displays powered by AMD Ryzen V1000/R1000 processors and integrated with AMD VEGA Graphics. DS-082 comes in an ultra slim profile of just 19mm with fanless and cable-free design that allows for easy installation behind the displays while saving on space. It can simultaneously drive four/three UHD(4K)/FHD(1080P) displays via HDMI; delivering seamless and smooth content flows across digital menu boards, self-ordering systems, retail applications, queuing systems, and multi-media kiosks. - read more-

SignaturePro 12-Port Video Wall Signage Player offers breakthrough capability powered by Intel

IBASE Technology revealed the implementation of Intel® Arria® 10 FPGA modules along with Intel® vPro™ Core processors and Intel® Media Accelerator Reference Software (MARS) technology in IBASE SignaturePro SP-63E multi-port video wall signage player. The integrated processor platform allows SP-63E to offer optimal performance and cost-optimized video wall solutions, driving up to twelve HDMI displays built with hardware EDID emulation, last frame capture and display monitoring functions.
