Start Your 5G and AI Applications with Advantech's EI-52

Advantech is pleased to release its newest edge intelligence system — the EI-52. This compact, high-performance system leverages an 11th Gen Intel® Core i5/i3/Celeron processor and plug-and-play system design. EI-52 is designed for edge-to-cloud interconnection and 5G x AI solutions. It comprises a hardware and software integrated package with EdgeX Foundry IoT plug-and-play open software framework and Advantech's WISE-DeviceOn IoT edge intelligence software. **- read more -**
