STACKRACK

Feb 19, 2019

Newly-launched StackRack Rugged Computing System

SR10-SCHX3 is a highly efficient and powerful computing system driven by the Intel® 8th Core i7-8700T Coffee Lake processor with Intel® Turbo Boost Technology that the operating Frequency can increase up to 4.0 GHz. The Intel® 8th Core i7-8700T processor effectively operates with 6 cores and 12 threads, which can successfully operate with a high speed efficiency processing program.
